

## Task 2

1. to be designed to store and process — хранение и обработка
2. to be capable of storing data — способность хранить данные
3. complex circuits with different functions — сложные схемы с различными функциями
4. to control and coordinate the activities of hardware — контролировать и координировать деятельность аппаратного обеспечения
5. to create the computer software instructions — создание инструкций компьютерного программного обеспечения
6. to accept information in the form of instructions — принимать информацию в виде инструкций
7. to supply the results — представить результат
8. to provide the information — представление информации
9. input — ввод
10. support personnel — поддержка работоспособности

## Task 3

1. специально подготовленная информация — specially prepared of information
2. состоять из миллионов электронных устройств — made up of millions of electronic devices
3. перемещать данные на огромной скорости — moving data at enormous speed
4. нужно рассматривать как аппаратное, так и программное обеспечение — both hardware and software need to be considered
5. во время обработки данных — during data processing
6. реагировать на процедуры — respond to the procedures
7. решать проблему — to solve the problem
8. храниться внутри компьютера — kept inside the computer
9. вывод — output
10. надежный — reliable

## Task 4

1. I disagree (Computer is a machine designed to store and process electronically, specially prepared pieces of information which are called data.)
2. I agree
3. I disagree (Hardware refers to the machinery, whereas software refers to the programs which control and coordinate the activities of hardware while processing the data.)
4. I disagree (The basic job of a computer is the processing of information.)
5. I agree
6. I agree
7. I disagree (A computer has no known limit on the kinds of things it can do; its versatility is limited only by the imagination of the people using it.)
8. I disagree (During the early period of computer development, these machines were large, not so reliable and very expensive to own.)

## Task 8

1

- a) Imagination
- b) Imaginary
- c) Imagine

2

- a) Added
- b) Addition
- c) Additional

3

- a) Complicate
- b) Complicatedly
- c) Complication

4

- a) Different
- b) Differentiate
- c) Differently

5

- a) Reliable
- b) Rely on
- c) Reliably
